The figures seem to point instead to a small but consistent demand, which these publications filled, on the part of a limited group of aficionados with the means to indulge this expensive taste. It is also revealing to look at the dates of the reprints of the popular works, which are more closely tied to public favor than is the production of new works. After the abdication of Carlos V, which marks a cut-off point for the writing of new romances, we find that reprints were not produced uniformly throughout the conclusion of the century as was the case with pliegos sueltos and other popular literature but instead appeared in groups.
